ABOUT ME

I'm mostly a self-taught front-end developer and I'm always open to learning new things!

Something interesting: I completed a 100-day challenge of daily coding on CodeWars and saved the results in a separate repository on GitHub. Thanks to this challenge, I was able to enhance my Javascript skills and demonstrate my commitment to IT.

PET PROJECTS

[Instagram clone](#)

This project was given to me during the courses, and I tried to make it resemble a real Instagram.

- **Stack:** React, Firebase, npm

[Pizza store](#)

A small pizza shop. Thanks to this project, I gained a deeper understanding of how React and Redux Toolkit work.

- **Stack:** React + TypeScript, Redux-Toolkit, npm

[Github user finder](#)

An interesting application for searching GitHub users.

- **Stack:** React + TypeScript,

EDUCATION

Issyk-Kul State University (IKSU)

Software for Computer Engineering and Automated Systems

JebeSoft Academy

Frontend Developer
