Soft Skills: Attention to details, Teamwork, Inquisitiveness, Initiative, Non-conflict, Timemanagement

ABOUT ME

I'm mostly a self-taught front-end developer and I'm always open to learning new things!

Something interesting: I completed a 100-day challenge of daily coding on CodeWars and saved the results in a separate repository on GitHub. Thanks to this challenge, I was able to enhance my Javascript skills and demonstrate my commitment to IT.

PET PROJECTS

Instagram clone
This project was given to me during the courses,
and I tried to make it resemble a real Instagram.

- **Stack:** React, Firebase, npm

Pizza store
A small pizza shop. Thanks to this project,
I gained a deeper understanding of how React and Redux Toolkit work.

- **Stack:** React, Redux-Toolkit, npm

Github user finder
An interesting application for searching GitHub users.

- **Stack:** React + TypeScript

EDUCATION

Issyk-Kul State University (IKSU) 2021 – 2024
Software for Computer Engineering and Automated Systems

JebeSoft Academy 2022-2023
Frontend Developer
